

CCX 1.5 & 2.5

Smart mobile coolers

CCX series is developed to suit the cooling needs for various commercial areas such as small shops, offices, restaurants and smaller workshops. The CCX has a modern and stylish design with an LCD display and it comes with modern features and different running programs. CCX provides a cost effective solution for open door commercial areas and in offices where the ventilation system is incapable to cool certain areas like conference rooms etc. The unit is very easy to move whenever it is needed.

The technology is based on the natural principle of using water to regulate the temperature and refresh the air. The system creates a comfortable indoor climate with optimal combination of temperature and humidity. No chemicals are used.

An attractive design with wheels and integrated water tank makes it easy to move the unit around in your space. The water tank capacity provides up to 10 hours uninterrupted running time. Front outlet motor controlled diffusers make it easy to conduct the air in wished direction or letting the unit sweep horizontally. An exclusive centrifugal fan design minimizes the noise and reduces the disturbance in office environments.

EQUIPMENT

CCX 1.5 & 2.5

- Attractive compact design
- Low installation, running and maintenance cost
- Remote control for easy operation
- Different settings and running features
- Handles to easily carry the unit
- Wheeled units with integrated water tank for multiple applications
- Long uninterrupted running time without need of water refilling
- Low noise
- Environmentally friendly with no chemicals

Evaporative cooling principle.

Theoretical principle and how it works

The evaporative coolers use evaporative cooling pads as media. A system of water distribution and a pump keep the pad continuously wet. Inside the machine a centrifugal fan sucks the air from the

outside through the pad. When it goes through the pad the air is saturated and it gets cooled. The cool air is then forced by the fan into the premises.

Technical specifications

Model CCX	1.5*	2.5
Voltage	230V~50Hz	230V~50Hz 120V~60Hz
Electrical power [W]	170	280
Current intake [A]	0.75	1.45/2.2**
Water tank volume [l] [gal]	25	31 [7]
Maximum airflow [m³/h] [cfm]	1,500	2,500 [1,470]
Evaporation efficiency [%]	85	85
Noise power level [dB _A]	64	67
Dimensions H x W x D [mm] [inch]	1,115x540x410	1,170x620x440 [46x24x17]
Weight (without water/with water) [kg] [lb]	17/42	23/54 [51/119]

*Only available for the European market.
**Operating under 120 V - 60 Hz.

CCX is a product of Munters Keruilai Air Treatment Equipment (Guangdong) Co., Ltd.
